EMİR CAN ÖZDAĞ

SENIOR .NET DEVELOPER

Istanbul · +90 533 361 8676 · emircanozdag@gmail.com · www.emircanozdag.com

SUMMARY

.NET developer with 6+ years building and maintaining scalable, high-performance enterprise backend systems with C#, .NET Core and ASP.NET Core, including at telecom (Türk Telekom) and broadcast (TRT) scale. Experienced in Agile teams across the full software development lifecycle: analysis, technical design, development, testing, deployment and production support. Hands-on with event-driven architectures (Kafka, RabbitMQ), Redis caching, Git-based workflows and Azure DevOps CI/CD, Docker and Kubernetes.

EXPERIENCE

Senior .NET Developer **2023 – Present**

TÜRK TELEKOM · Ankara

- Develop .NET Core backend services and RESTful APIs using EF Core and Dapper in a large-scale telecom environment.
- Improve performance with Redis caching and decouple services through RabbitMQ messaging.
- Own features end to end, from requirement analysis and technical design through development to deployment and post-release support.
- Write unit tests to ensure code quality and reliability of backend services.
- Work in Agile/Scrum teams, contributing to sprint planning, estimation and retrospectives.
- Deliver through Git and Azure DevOps CI/CD pipelines; containerize services with Docker and Kubernetes.

Backend Developer **2021 – 2023**

TRT · Ankara

- Built RESTful APIs with ASP.NET Core powering front-end applications.
- Implemented authentication and authorization with OAuth 2.0 and JWT.
- Worked with MSSQL and Oracle databases on enterprise business applications.

Software Developer **2020 – 2021**

APSIYON · Istanbul

- Designed, developed and maintained scalable, high-performance backend systems with C# and .NET Core.
- Developed web front ends with JavaScript, TypeScript, HTML/CSS and DevExpress.

TECHNICAL SKILLS

Backend	C#, .NET / .NET Core, ASP.NET Core, REST API, EF Core, Dapper
Frontend	JavaScript, TypeScript, HTML, CSS, DevExpress
Messaging & Cache	Kafka, RabbitMQ, Redis
Databases	MSSQL, Oracle, MongoDB
DevOps & VCS	Git (GitHub / GitLab), Azure DevOps, CI/CD, Docker, Kubernetes
Security	OAuth 2.0, JWT
Practices	Agile / Scrum, Unit Testing, SDLC

EDUCATION

B.E. Computer Engineering **2015 – 2019**

Bilkent University

LANGUAGES

Turkish — Native · English — Business

CERTIFICATES

Web Developer — Bilge Adam (2020)

Building a Real-World RESTful API — Udemy (2019)
